

# SatQuery AI - Analysis Report

Job smoke\_1787991783913 | task: change\_description

## Query

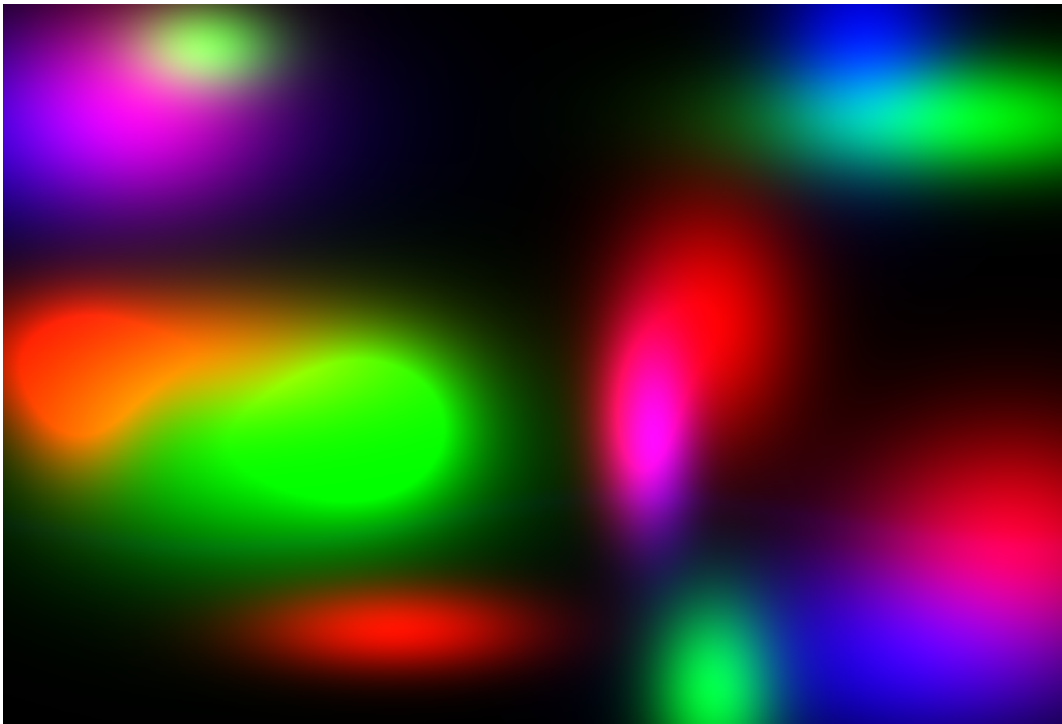

Describe what changed between these two dates, and where the change occurred.

## Answer

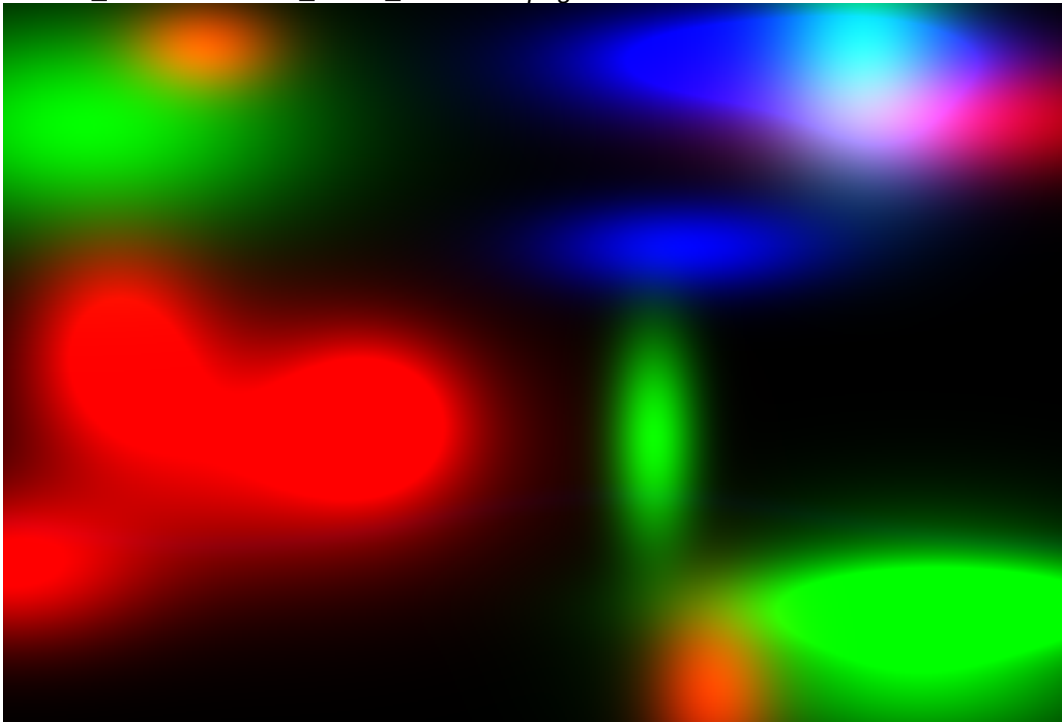

The main change between 2023-01-01 and 2023-07-01 is new building construction concentrated near the northwest corner, plus a small vegetation-to-bare-soil conversion along the riverbank. [mock output - wired to real specialist once adapters ship]

## Confidence

mock — Deterministic placeholder (skeleton/demo mode), not a calibrated score.
